Professional Experience :

Dedicated and results-oriented professional with over 6 years of experience in SQL Testing, QA Engineering, and Production Support across the Retail, Fintech, and Banking sectors. Throughout my career at Tata Consultancy Services (TCS) and IVAAN Technologies, I have delivered high-quality technical solutions for global clients including Woolworths Group, PayPal, and Barclays. My expertise lies in executing complex SQL queries and data validation within Google BigQuery, managing automated production workflows using Control-M and UC4, and optimizing GCP cloud infrastructure. I am highly proficient in the full STLC (Software Testing Life Cycle), from developing comprehensive test plans to defect management in JIRA and qTest. With a strong foundation in Oracle PL/SQL development and performance tuning, I have a proven track record of performing Root Cause Analysis (RCA) and maintaining 24/7 system reliability for critical business applications."

Professional Experience

Tata Consultancy Services (TCS) | July 2025 – Present

Woolworths Group

Role: SQL Testing / QA Engineer

- **SQL Querying & Data Verification:** Write and execute basic to complex SQL queries to extract, manipulate, and validate data within databases like **Google BigQuery** to ensure integrity.
- **Test Planning & Design:** Develop comprehensive test plans and cases for system, integration, and regression testing.
- **Defect Management:** Collaborate with developers to report, track, and resolve bugs using **JIRA and qTest**.
- **Agile Collaboration:** Participate in daily stand-ups and retrospectives within cross-functional teams to ensure successful solution deployment.

Tata Consultancy Services (TCS) | June 2023 – July 2025

Client: PayPal | Chennai

- **Workflow Automation:** Managed and automated production processes using **Control-M** and **UC4**.

- **Cloud Infrastructure:** Utilized **Google Cloud Platform (GCP)** to optimize infrastructure and improve production scalability.
- **System Monitoring:** Employed **Linux commands, Putty, and Jupyter notebooks** for server maintenance, troubleshooting, and performance data analysis.
- **Service Management:** Collaborated with **ServiceNow** and **Jira** teams to manage IT service requests and incident tracking.

Tata Consultancy Services (TCS) | June 2022 – June 2023*

Client: Barclays | Chennai

- **Production Support:** Provided 24/7 on-call support for critical systems, managing incidents to minimize downtime.
- **Root Cause Analysis:** Conducted deep-dive investigations into recurring production issues to implement long-term fixes.
- **Tooling:** Automated production workflows using **Jobs Status Portal, Putty, Linux, ITRS, Solace queue, and Toad**.
- **Change Management:** Validated scheduled releases to ensure zero negative impact on the production environment.

IVAAN Technologies | August 2018 – March 2022

Project: Morgan Security (New York) **Role:** Software Engineer (SQL & PL/SQL Developer)

- **Database Development:** Developed and maintained **Procedures, Functions, Packages, and Triggers** to implement complex business logic.
- **Performance Tuning:** Optimized slow-running queries using **Explain Plan, dbms_profiler, and Bulk Collections** to reduce context switching.
- **Data Migration:** Used **SQL Loader** and control files to load data into various schema tables.
- **Requirement Analysis:** Converted functional requirements into technical documentation and performed impact analysis for change requests.

Technical Skills

- **Databases:** Oracle 11g/12c, Google BigQuery
- **Languages:** SQL, PL/SQL, Unix Shell Scripting
- **Tools:** SQL Developer, SQL*Plus, Toad, Putty, Jupyter
- **Automation/Scheduling:** Control-M, UC4, Autosys, Azure DevOps
- **Monitoring/Testing:** ITRS, Solace, Postman, Cypress, Playwright, Selenium

- **ITSM/Versioning:** ServiceNow, JIRA, qTest, SVN

Education

- **B.E. (Bachelor of Engineering)** | Dhanalakshmi Srinivasan Engineering College (Completed 2018)
